# Receiving Mobile App
تطبيق إذن توريد مشتريات

OGR

Overview

Our receiving mobile App is a prompt tool for receiving all purchased products into Onyx ERP Solutions. Easy and handy tool for all warehouse receivers.

Configuration

- ○ Compatible with Android operating system.
- ○ Easily installed on the receiving agent's smart phone or tablet.
- ○ Simple App settings to connect to the Onyx ERP Solutions.
- ○ Supports internal mobile barcode reader, external barcode reader through Bluetooth connection or basic mobile camera.
- ○ Flexibility in receiving full or partial purchase order items or quantities.
- ○ The App supports receiving items without any corresponding purchase order or vendor.

Application Function: Create, save and post received items and orders to Onyx ERP Solutions online.
